

# Air Assist Instruction Manual

• English

F03-0209-0AA1

Connect the air tube

Flow regulation switch

EN: Do not bend the air tube

# Lightburn Software Settings

Open "Settings" -> Select "M7" -> Click "OK" -> Turn on "Air"

# Precautions for use

Be careful not to get the hose caught by the wheel.

Be careful not to bend the hose excessively and block the airway.

Please note that the hose cannot be bent excessively to block the air line during pump operation. Avoid damaging the air pump.

# Air Assist Bedienungsanleitung

Schließen Sie den Luftschlauch an

Schalter zur Durchflussregulierung

Biegen Sie den Luftschlauch nicht

# Lightburn-Software-Einstellungen

Öffnen Sie "Einstellungen" -> wählen Sie "M7" -> klicken Sie auf "OK" -> schalten Sie "Air" ein

# Vorsichtsmaßnahmen für die Verwendung

Achten Sie darauf, dass der Schlauch nicht von den Rädern erfasst wird

Achten Sie darauf, den Schlauch nicht übermäßig zu biegen und die Atemwege zu blockieren.

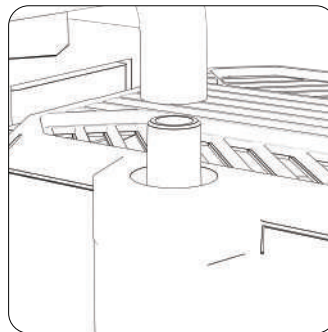

Bitte beachten Sie, dass der Schlauch nicht übermäßig gebogen werden darf, um die Luftleitung während des Pumpenbetriebs zu blockieren. Vermeiden Sie es, die Luftpumpe zu beschädigen.

# Manuel d'instructions Air Assist
